RINA carries out its duties through officers or other persons it considers possess all the requirements of suitability and competence for the tasks which have in any case whatsoever, (even if its opinions are requested on matters not expressly covered by Rules) assume the liabilities pertaining to the designers, been assigned to them. In its capacity as expert RINA only expresses opinions and evaluations of compliance with its own rule requirements and does not, shipowners, builders, test inspectors, shipyards or any person or organization responsible by law or contractually for providing guarantees for all of whom the respective liabilities remain unchanged even in the case of consultative actions by RINA. For what concerns the tasks taken on and carried out directly, other than those delegated, dealt with in the following sentence, RINA is answerable in law terms. Within the context of the tasks under the responsibility of RINA as delegate of the Italian Merchant Marine Ministry, liability can only be recognized in the case of fraud or gross negligence by the officers or the persons entrusted. In no case shall the liability, regardless of the amount of damage reported, exceed a value equal to 5 times the total of the fees received by RINA as consideration of the services rendered from which the damage reported derives.

Attachment to Statement No 2009/XG/0611

Page 2/3

At the following conditions:

RINA is to be informed immediately of any modification to manufacturing and testing facilities, associated procedures and relevant qualifications, in order to take appropriate actions.

Control of incoming materials, inspection of workmanship during manufacturing, non- and destructive tests and dimension checks in accordance with the RINA rules will be performed directly and systematically by the manufacturer with the attendance and under the responsibility of the manufacturer's Quality Control Department.

Range of Products:

Screws and Nuts up to 300 [mm].

The tests have to be performed acc. RINA "Rules for Testing and Certification of Marine Materials and Equipment" in the latest edition.

For screws and nuts ordered with RINA testing the RINA form "Certificate of Conformity", the material certificate and the final test certificate has to be forwarded to RINA Germany Office. All necessary documents have to be available in one fold.

On basis of this documentation the RINA Germany Office will issue the RINA test certificate.

The maintenance of the validity is subject to the satisfactory outcome of the periodical audit as per attached plan (page 3/3).
